EBERHARD  
ATTORNEYS AT LAW

## Expertise Overview

Roxanneh Mousavi is an Attorney licensed in Washington. Her practice focuses on premises liability, slip and fall, and landlord-tenant cases. Roxanneh is also involved in working with general contractors, and subcontractors on CD matters.

Roxanneh dedicated her last two years of law school to researching and writing for the Seattle University Law Review. When the time came to write a note for law review, she published **Creativity for the Common Good: The Case for Fair Use of Prosthetics Patents**, 45 **Seattle U. L. Rev. 1265 (2023)**. Roxanneh says she always had a strong interest in intellectual property (IP) and combined her passion with a public interest story. Her professor encouraged her to write on 3D printing and guided her toward a few resources. Roxanneh accomplished her publishing goal, which she felt was immensely rewarding. She hopes to contribute to academic journals again in the future.

Prior to joining Smith Freed Eberhard, Roxanneh worked as a law clerk for a mid-sized insurance defense and civil litigation firm in Los Angeles, CA. This position allowed her to gain experience and develop an interest in various practice areas, including premises liability, personal injury, and products liability matters.

## Personal Life

Raised in Washington, Roxanneh has a deep appreciation for Seattle's coffee shop scene and is always eager to discover a new spot. Her hobbies include singing, yoga, visiting museums, reading, watching horror movies, and traveling.
